Habitec Security
Honeywell Touch Screen
Operating Instructions

- **_About Your System:_** The **Habitec Security Honeywell** security system's burglary protection can be armed or disarmed as needed; while monitoring for fire, medical, and police emergency conditions are active 24-hours a day.

- **_False Alarm:_** In the event there is a false alarm, please disarm your alarm ASAP and contact your central station immediately at 1-800-832-5276. Please have your verification password ready.

- **_Arming the System:_**
    - Press Arm Away or Arm Stay
        - Away will Arm the entire system
        - Stay will arm the Perimeter and leave the motions off.
    - Then enter code

- **_Disarming the System:_**
    - Enter your code
        - You will hear an entry tone reminding you to disarm the system when you are entering.

- *Fire/Medical/Emergency:*
    - Press and Hold the Panic Button
        - Located at the bottom of the keypad
    - Also push the appropriate Icon
        - These emergency buttons are on 24 hours a day

- *Reset Alarm Activation:*
